DETAILS

REVIEWS

Foxtech **35mm full frame lens** and **25mm APS-C frame lens** are fixed focal lenses specially designed for drones to do mapping and survey jobs.

The 35mm lens is a full frame lens, focal length is 35mm, and it is very bright with a **maximum aperture of F5.6**.

The full frame lens is suitable for **Full Frame E-mount cameras** like FOXTECH Map-A7R. Foxtech **35mm is a wide-angle lens** which is suitable for wide-angle photographs. The 25mm lens is APS-C frame lens with a maximum aperture of F5.6. It is also **E-mount lens suitable for Foxtech Map-01 camera** and most of **E-mount**

cameras. The lens housing of the two lens is made from anodized aluminum which ensures a fancy appearance and high quality. The lenses feature a small size and light weight, the 35mm lens is **only 49g**, and the 25mm lens is **75g**. Foxtech 35mm full frame lens and 25mm APS-C frame lens are cost-effective. Both of the two lenses are suitable for variety of mapping and survey occasions.
